

more serious issues at stake in Western Sahara concerning terrorism, and trafficking in persons, guns, drugs and other contraband.

Morocco has met the State Department's criteria for enhanced human rights protection and reporting, and should be applauded for taking this initiative as part of its continuing reform process and desire to improve the lives of all Moroccans, including the Western Sahara. Morocco is working hard to become the standard bearer for progress, reform, and development in the region. We should do all we can to support these vital efforts.

CELEBRATING THE 40TH ANNIVERSARY OF THE COAST GUARD TRAINING CENTER PETALUMA

HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 29, 2011

Ms. WOOLSEY. Mr. Speaker, I rise with great pride today to honor Coast Guard Training Center Petaluma on the occasion of its 40th anniversary.

Originally known as Two Rock Ranch Station, the 876-acre site was purchased by the U.S. Army for \$97,377 in 1942 and used as an electronic intercept station in World War II. There were two officers and 45 enlisted men assigned to it. Two Rock's use was expanded during the Vietnam War to include training, with a re-created Vietnamese village.

The Coast Guard took ownership of the facility in 1971, renaming it "Coast Guard Training Center Petaluma" and transferring the Subsistence Specialist School, Storekeeper School, and Radioman School from New York. Since that time, two barracks have been built (Steadman Hall and Horsley Hall) as well as 15 duplex housing units to provide affordable housing to the workforce. Several other buildings for use in training were also constructed (Bauer Building, Juliet-Nichols Building, and Haley Hall). The current replacement value of the facility is close to \$245 million.

During the 1990s, Coast Guard Training Center Petaluma was threatened with closure twice as the U.S. reevaluated its bases. The local community rallied in support, and I was able to work with them and with Coast Guard officials to keep this important facility open.

Today, the Center is home to seven "A" schools for electronics, technician, food service specialist, health service technician, information system technician, operation specialist, storekeeper and Yeoman. There are also 40 "C" schools and a Chief Petty Officer Academy. With a permanently assigned cadre of 500 active duty, civilian, and contractor staff, the facility supports more than 15,000 students per year.

Coast Guard Training Center Petaluma truly embodies its vision: To be a world leader in valid and reliable performance-based training; to be the best place to live and work in the Coast Guard; to be the best and most efficient steward of resources (money and property) in the Coast Guard training system; and to be the most environmentally-friendly Coast Guard base in the world. Having recently attended an event to throw the switch on solar panels that now provide much of the Center's electricity, I have seen first-hand how serious this vision is.

Mr. Speaker, Coast Guard Training Center Petaluma is important to the local community

and important to our country. Please join me in congratulating the Coast Guard on the facility's 40th anniversary and wishing it many more years of service.

OPPOSITION TO H.R. 2587, PROTECTING JOBS FROM THE GOVERNMENT INTERFERENCE ACT

HON. MICHAEL M. HONDA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 29, 2011

Mr. HONDA. Mr. Speaker, despite the bill's colorful title, the Protecting Jobs from Government Interference Act (H.R. 2587) is a blatant attempt to decleave the National Labor Relations Board (NLRB) and weaken the rights of American workers. Created in 1935 by the enactment of the National Labor Relations Act (NLRA), the NLRB oversees the process by which employees form unions and enforces fair labor provisions against violations committed by private sector employers and unions. H.R. 2587 would strip the NLRB's ability to punish businesses for unlawfully relocating or dissolving jobs in retaliation for union organization, and thus eliminate the NLRB's only meaningful enforcement tool to protect working Americans under the National Labor Relations Act.

H.R. 2587 was authored by Representative TIM SCOTT of South Carolina to prevent the NLRB's ongoing case against the Boeing Company for allegedly violating federal labor laws by opening a non-union passenger plane production facility in South Carolina, rather than in the state of Washington, from moving forward. According to the NLRB, it has evidence that Boeing intentionally moved its facilities to a non-union state in retaliation against unionized workers in Washington. By law, employers may move their facilities to non-union states, but it is illegal for employers to retaliate against employees for exercising their federally-protected right to strike. Whether or not Boeing's actions were illegal is a matter to be decided, but not by politicians.

While millions of Americans are struggling to find employment, the Protecting Jobs from Government Interference Act would neither create nor protect jobs as the title claims. On the contrary, H.R. 2587 would weaken American workers' rights and reduce the number of U.S. jobs by legalizing company reprisals against unions through the dissolution or transfer of jobs to non-union sites elsewhere in the United States and, even more worrisome, somewhere overseas.

As a stalwart advocate for American workers, I cannot support efforts that would take away an important tool in helping to ensure that employers do not violate the law by retaliating against unionized employees. Our nation is stronger when workers join together and bargain for a better life, and when employers respect those rights. To that end, I have long supported efforts in Congress to protect and strengthen the right of American workers in every industry to collective bargaining. While I imagine the dispute between the NLRB and the Boeing Company will be worked out, in the meantime, Congress should not interfere with important legal protections for union workers that are already in place. For these reasons, I am strongly opposed to H.R. 2587.

THE HONOR FLAG—10TH ANNIVERSARY OF 9/11 ATTACKS

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 29, 2011

Mr. POE of Texas. Mr. Speaker, in less than one month, Americans will observe the 10th anniversary of the September 11th terror attacks. Those who witnessed the events of September 11th will always remember that day and what they were doing. It's like those of us that were alive when President Kennedy was assassinated. We remember that day; we remember what we were doing. And the old timers, they remember Pearl Harbor and what they were doing on December 7, 1941. September 11th is a day that we as a Nation should always remember because it reminds us of the preciousness of this Nation and her belief in freedom and liberty. It is something that is without a doubt worth preserving.

As we remember where we were on that fateful day, it is even more important that we remember the 3,000 individuals that lost their lives that day. Many who lost their lives were heroes trying to rescue those trapped by the attacks. When those Twin Towers were set aflame, those volunteers, those firefighters, those emergency medical folks and those police officers, they rushed as hard as they could to get to that terror from the sky. As a result of their heroism, many got to live another day. There are countless stories of the selfless bravery which occurred on 9/11, how Americans reacted extraordinarily in order to rescue one and other. In the face of attack, we pulled through with a remarkable spirit of unity and compassion that swept through our country.

Shortly after the tragic September 11, 2001 attacks on our great Country, Americans all over the world raised up 'old glory' in patriotic understanding of the events which had just befallen our country. The American Flag has always been a symbol of bringing our Nation together in good times or bad. One of these many flags was the symbol of our Nation's perseverance, was the Flag which was flown over Ground Zero. Still today this flag continues to fly, all around this great Nation in support of our heroes, because of Texas Patriot, Chris Heisler.

In the aftermath of September 11th, Chris Heisler, like many other Americans felt compelled to take action after witnessing his country come under attack. When Chris was gifted this patriotic flag by Texas House of Representatives, he helped organize one of the longest police motorcades in the history of the United States to honor it. The American flag is a symbol to reverse, respect, and honor and Chris' profound respect for America's symbol should be commended.

Following the 9/11 terrorist attacks, patriotism surged in the United States. Many young men and women enlisted to help fight the war on terrorism. Chris Heisler was part of this movement, and at the age of 34 he put his business career on hold to enlist in the U.S. Army. While serving his country, Chris carried his revered flag with him to Kuwait, Qatar, and Iraq so it could fly with soldiers in combat zones.

Soon soldiers began to refer to this flag as one of honor, as a result the flag is now named the United States Honor Flag. Ten

years later, The United States Honor Flag continues to pay tribute to those who have lost their lives in the line of duty protecting the freedoms we all hold dear. The United States Honor Flag has been to many places including Ground Zero in New York, the Pentagon, National Fallen Firefighters Foundation Memorial, the National Law Enforcement Officers Memorial, Presidential Libraries, VA Hospitals, and to countless sporting events. The flag has flown for more than 1,000 fallen soldiers and at funerals for police officers and firefighters. Recently it went to Space! It traveled on board the shuttle Atlantis' final mission.

It is one single flag. There's a lot of security details involved in transporting the U.S. Honor Flag. It is kept in a secure case. The Department of Homeland Security has sewn microchips into the seam of the flag to verify its authenticity. The flag is constantly traveling. It is a national treasure that is respected and guarded.

The betterment in our country often originates from the efforts of just one person. The establishment of the Honor Flag serves as an important reminder of the daily sacrifices our Nation's heroes make, and recognizes the freedoms of Old Glory. In recognition of Chris Heisler's patriotism, in remembrance of the tragic events on September 11, 2001 and for those who continue to fight to preserve our liberty, I am proud to salute Chris Heisler for his loyalty to America, and to the United States Flag.

We should remember those that died, those that got to live, and those that continue to fight for our freedoms today in places all over the world in the name of liberty and freedom.

And that's just the way it is.

PERSONAL EXPLANATION

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Friday, July 29, 2011

Mr. GRAVES of Missouri. Mr. Speaker, on Monday, July 25, I missed a couple of rollcall votes. Had I been present, I would have voted "yea" on No. 630 and "nay" on Nos. 631, 632, 634, 635, 636.

TRIBUTE TO DR. STANLEY PEARLE

HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, July 29, 2011

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today to express my sadness over the passing of one of America's greatest assets to the field of optometry, and one of my dear friends, Dr. Stanley Pearle. The man behind the eyewear business Pearle Vision, passed away last week at the age of 92 in his home in Dallas, Texas.

Pittsburgh-native Dr. Pearle graduated from Northern Illinois College of Optometry in 1939 and relocated to Dallas to take his board examinations and later marry his high school sweetheart, Elsie. He served in the U.S. Navy for a few years and after World War II he worked for several eye care companies, rising

to a management position with Lee Optical in Dallas. Eager to start his own business he left the company in 1961 to open his first store. More than 40 years and 675 company and franchise stores later, Pearle Vision remains a trusted household name with locations across the U.S., Canada and Puerto Rico.

His contributions to the world of optometry are world renowned. Dr. Pearle's vision was to change how people were fitted for their eyewear. Initially, eye patients would visit an optometrist for a medical procedure but Dr. Pearle made it a more fashionable purchase and experience in a well-lit store with a vast array of frames to choose from. Pearle Vision has boasted that it is the first nationwide optical retailer and it is all thanks to the vision of Dr. Pearle himself. I knew his wife, Elsie Cohen who was a dear friend of mine. Dr. Pearle is survived by three of his four children, 10 grandchildren and 11 great-grandchildren.

Mr. Speaker, I urge my colleagues to join me in paying tribute to Dr. Stanley Pearle. I appreciate the dedication and innovative changes he made to optometry. He will truly be missed.

ON THE 25TH ANNIVERSARY OF THE NASA LANGLEY AEROSPACE RESEARCH SUMMER SCHOLARS (LARSS) PROGRAM

HON. ROBERT C. "BOBBY" SCOTT

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 29, 2011

Mr. SCOTT of Virginia. Mr. Speaker, I rise today to commemorate the 25th anniversary of the NASA Langley Aerospace Research Summer Scholars program.

In 1986, under the leadership of Dr. Sam Massenberg along with the support of senior leadership from NASA Langley Headquarters, the Langley Aerospace Research Summer Scholars (LARSS) program was established. This program was designed to create internship opportunities for undergraduate and graduate students and ultimately provide a pipeline of experienced graduates into NASA's workforce. Today, I would like to take this opportunity to recognize and commemorate the program's 25th anniversary.

The LARSS program is NASA's oldest year round internship program providing high school, undergraduate, and graduate students hands on research experience working side-by-side with NASA engineers and scientists. This program was "the first of its kind" and has served as a model for other NASA centers.

During the 25 year history of the LARSS program, more than 4,500 competitively selected students from all over the United States and the U.S. territories have participated in the program. The program began with a class of 20 in 1986 and has since grown to include more than 200 students annually. This year the program received its largest applicant pool with nearly 800 applicants applying over the fall, spring, and summer sessions.

The LARSS program has been benefiting engineering undergraduate and graduate students for 25 years. Many of these students join NASA's workforce and have taken a significant role in preserving NASA's leadership in aeronautics and space science. This pro-

gram has been a catalyst for promoting careers in the fields of science, technology, engineering, and mathematics especially in the African-American, Hispanic, and Native American communities. The result continues to be a well educated, well trained, and diverse engineering and science workforce for NASA. Minorities made up 23% of the 200 scholars participating in the program this past year and that number continues to increase.

Since 2006, the Virginia Space Grant Consortium has managed the LARSS program for NASA under a sub-award from the National Institute of Aerospace. This has allowed the program to grow from a summer only program to a year round program in the spring, summer, and fall. The success of the LARSS program has been recognized by the Langley and Hampton Roads communities, and it was recently ranked sixth on a national list of the "10 Best Internships for 2011" by Vault Career Intelligence.

As the world becomes increasingly relevant on technology, the importance of the United States remaining technologically competitive and producing quality engineers and scientists is vital.

Mr. Speaker, I am proud that 25 years later we are able to recognize the importance of this great program and the dynamic impact it has made on American society. On this 25th anniversary of LARSS, I commend NASA for the progress it has made to strengthen STEM education, and I challenge it to continue to inspire our youth to create new ideas, new products and innovative solutions to solve our nation's problems.

It is my hope that LARSS will continue to provide NASA and our nation's engineering and science community a pipeline of problem solvers and innovators. I thank NASA Langley for continuing the great legacy of the LARSS program over the past 25 years, and I look forward to its continued success.

IN HONOR OF REV. DR. JOHN A. SEVERSON CELEBRATING FIFTY YEARS OF PREACHING THE GOSPEL

HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Friday, July 29, 2011

Mr. BISHOP of Georgia. Mr. Speaker, I rise today to honor of the Rev. Dr. John A. Severson, who will celebrate fifty years of preaching the gospel this weekend. Through these many years, Rev. Dr. Severson has remained dedicated to spreading the Word of God and striving to improve his community, particularly those less fortunate.

John A. Severson was born in Calhoun County in Edison, Georgia to the late Mr. Lucious B. Severson Sr., and the late Mrs. Annett H. Severson. He received his early education in the public schools of Calhoun County, and in 1961, felt the call to ministry.

Rev. Dr. Severson received his Bachelors & Master's Degrees in Ministry from Bethany Theological Seminary, and he received his Doctorate of Theological Studies from the Bethany Divinity College and Seminary, in Dothan, Alabama. Since graduating, Rev. Dr. Severson and has been proclaiming the good news of the gospel to this day, serving several congregations in both Georgia and Alabama.
